SAGED.CLUB

Meta Ads Setup Guide for Instructors

The correct settings for promoting your classes at Saged on Instagram and Facebook — step by step.

Talk to Diana before launching · All campaigns run via the studio account

BEFORE YOU START

All campaigns go through Diana

Your ads run under the Saged Meta Business account. Send Diana your settings, creative, and copy for review before anything goes live. She activates all campaigns. Contact: WhatsApp +34 605 54 33 00 · Telegram @dvoroneca

What works at Saged — the short version

The studio's primary booking channels are Koritsia's Telegram community and word of mouth — not paid ads. Meta ads are a brand awareness layer that keeps Saged visible to new residents who later book through DM. Use them for visibility, not as your only booking channel. Your best ad is a great class that students want to talk about.

STEP 1 — CAMPAIGN SETTINGS

CAMPAIGN LEVEL	
Objective	`OUTCOME_TRAFFIC` Always Traffic. Never Engagement (pays for likes, not bookings) and never Sales.
Campaign name	`Saged · [Class] · [Language] · [Month Year]` Example: "Saged · Ceramics · RU · Oct 2026"
Campaign budget	Off — set budget at ad set level, not here

Status on creation	`PAUSED` — always. Diana activates.

STEP 2 — AD SETS (ONE PER LANGUAGE)

> **One ad set per language — never merge RU and UA**
>
> Russian and Ukrainian audiences are separate communities. Create one ad set for Russian speakers, one for Ukrainian, one for English. Different copy for each. Never combine them into one ad set.

AD SET SETTINGS — SAME FOR EVERY LANGUAGE	
Ad set name	`[Class] · RU · Valencia` / `[Class] · UA · Valencia` / `[Class] · EN · Valencia`
Conversion location	`Messaging apps` (preferred) or `Website` Messaging opens a WhatsApp DM directly — higher conversion for this audience and price point than website checkout.
Budget	€3–€5 per day, or €50–€70 lifetime for a 2–3 week campaign
Schedule	Start 3 weeks before your class date. End date 2 days before.
Bid strategy	`Lowest cost without cap`

STEP 3 — AUDIENCE TARGETING

LOCATION	
City	Valencia, Spain Always verify the city key via Meta API before use. Do not copy keys from memory or documents.
Radius	17 km
Location type	`People who live here` only "Recently in this location" includes tourists — they will never book a workshop. Residents only.

LANGUAGE / LOCALE	
Locale IDs	Russian `17` · Ukrainian `52` · English UK `24` · English US `6` · Spanish `23` **Always verify these via the Meta API before every campaign. Never copy IDs from this document or from memory — they can change.**

DEMOGRAPHICS & TARGETING	
Age	25–54 — never widen above 54
Interest targeting	Leave off for locale campaigns — locale already narrows the audience enough
Advantage audience	OFF If left on, Meta can override your locale and age targeting. Always disable.
Placements	Instagram Feed · Stories · Reels only Remove Audience Network (third-party apps). Your audience is on Instagram.

STEP 4 — CREATIVE

✓ DO THIS

- Video of hands in clay — even 15 seconds
- Headline: 1 specific thing, under 6 words
- Copy: 2–3 sentences, conversational tone
- CTA button: "Send Message" or "Learn More"
- Real photos of Saged classes — real students
- Language matches the ad set exactly (RU copy → RU ad set)
- Both 1:1 (feed) and 9:16 (stories) formats

✗ AVOID THIS

- Stock ceramic photos — audience can tell immediately
- Flyer-style text over image (prices, dates, logos)
- "Spaces filling fast!" urgency if it isn't true
- CTA "Book Now" or "Shop Now" — too transactional
- Emoji as decoration (one purposeful emoji max)
- Same creative for RU and UA — always separate
- Advertising events — organic only for events

Best performing format at Saged — English video

Short video (15–30s) showing hands working with clay. Clear single-line headline. WhatsApp CTA. In testing, this format achieved 5.17% CTR at €0.01 cost per click — reaching 29,000 people in 3 weeks on a small budget. Prioritise video over static image whenever possible.

STEP 5 — WHERE TO SEND PEOPLE

RECOMMENDED — WHATSAPP DM

Ad opens a WhatsApp conversation with Saged.

Pre-fill the message with the class name so Diana knows which class the person saw the ad

ALSO WORKS — LANDING PAGE

Send traffic to saged.club (RU) or saged.club/ua (UA). The booking section has both WhatsApp and Cal.com links.

for.

Why: For workshops at €40–€90, most people want to ask a question before paying. Message-first converts better than direct checkout.

Good for general awareness. The landing page has all the class information for people who want to read more before reaching out.

BUDGET REFERENCE

SCENARIO	BUDGET	AD SETS	DURATION
First campaign	€30–€50	1 (RU or EN)	2 weeks
Regular class	€75–€100	2 (RU + EN or RU + UA)	3 weeks
New class launch	€100–€150	3 (RU + UA + EN)	4 weeks
Events	**€0 — organic only**	None	—

PRE-LAUNCH CHECKLIST

CAMPAIGN
☐ Objective is OUTCOME_TRAFFIC
☐ Campaign is set to PAUSED
☐ Name follows the naming convention
AD SET — AUDIENCE
☐ Location: Valencia, Spain — city key verified via Meta API (not from memory)
☐ Location type: People who live here only
☐ Locale IDs verified via Meta API — not copied from a document
☐ Age: 25–54
☐ Advantage audience: OFF
☐ Placements: Instagram only (Audience Network removed)
AD SET — BUDGET & SCHEDULE
☐ Daily or lifetime budget set correctly
☐ End date set — no open-ended campaigns

- [ ] Separate ad sets for each language

CREATIVE

- [ ] Ad language matches the ad set locale
- [ ] Headline is specific and under 6 words
- [ ] CTA is "Send Message" or "Learn More"
- [ ] Destination link tested on mobile
- [ ] Both 1:1 and 9:16 formats uploaded

FINAL STEP

- [ ] Diana has reviewed everything and confirmed ready to activate
