RISKS

- ! **Instructor dependency — 45%** of Jun–Sep income from Korytsia. No signed agreement. One departure = immediate loss.
- € **Cash pending** — Aug €287.50 + Sep €722.50 from Korytsia not yet handed over.
- ~ **Event income volatile** — Sep events €620 (37%) won't repeat automatically. Core recurring income is ~€1,065.
- ? **No salary yet** — studio is break-even at operational cost but owner hasn't drawn income.

OCTOBER OUTLOOK

- ↑ **Projected surplus ~€1,647** if full schedule. First month where €500 salary is feasible.
- ✓ **Fixed costs lower** — TGSS, Vuka, Artlist all discontinued. Monthly floor now ~€1,395 vs €1,700 in spring.
- › **Korytsia + Vita schedule** — key lever. Publish October dates now. Word of mouth is the real acquisition channel.
- › **Second kiln + shelving** planned Jan–Feb 2027 — contingent on Oct/Nov surplus.
